EAPT Meeting 2019

What we do:

EAPTs objectives are:

- To gather information on the role and training of the pharmacy technicians across Europe
- To promote and develop the profession and the role of the pharmacy technician
- To promote patient safety in the context of pharmacy practice
- To promote, influence and negotiate on European policies where they relate to the profession of pharmacy technician

EAPT aims to do this by:

- Undertaking evidence based research on the scope of practice and education of pharmacy technicians
- Promoting environmentally safe practices in pharmacy in line with the European legislation
- Presenting and sharing pharmacy technicians initiatives and education, in line with current practice
- Promoting the continuing professional development of Pharmacy Technicians
- Collaborating with other associations, in Europe and globally, with similar objectives

Why join and how to join:

Membership is open to Pharmacy Technicians' Associations in Europe.

As a member, you will have access to:

- An annual membership meeting
- Networking with European peers
- Sharing of best practice & promoting the pharmacy technician role
